*3400 BIOL 105-010 BIOLOGY AND SOCIETY 3 LEC MW 06:00PM -07:15PM HS 211 MIRIEL
Subtitle: Physiology of Soccer
NOTE: Football (soccer) is a global sport with a fan base in the billions. According to FIFA, nearly 3.2 billion viewers watched the World Cup tournament in 2014, and 1 billion viewers watched the World Cup finals. In the U.S. alone, 30 % of households have someone that plays soccer and approximately 24 million Americans play soccer. The popularity of football represents a unique opportunity to connect a growing fan base of this sport to fundamental concepts in human health and disease. This course will use "the beautiful game" to inspire students to learn introductory concepts in human physiology, nutrition, and pathophysiology. Prerequisite - Biology 101.

	Subtitle: Writing What's Missing								
	NOTE: Course Description: This course is designed to help students deeply engage contemporary poetry and its trends, produce publishable work and become fluent in the language of contemporary poetry broadly and in one particular aspect of that conversation specifically. In this iteration of the course, we will focus on the writing what's missing (both poems that work through absence and techniques for creating work that contains or explores absence as content and form). The unknown plays a hefty role in the history in poetry. In this course, we will read some of classic poems that use void on line and, through five monograph books, explore the range of manifestation and technique in the contemporary poetry that uses absence to establish its own emotional and epistemological presence. We will pay special attention to theory of the lyric and craft

-------	--------------	--------------------	---	--------	------------------	--------	--------

NOTE: Addresses social and ethical problems facing business today. Ethical principles and problem solving models are applied to issues of profit maximization, workplace diversity, consumerism, risk management, product liability, government-business interface, environmental economics, global business, financial management and other key business areas. Focus is on analyzing these problems and developing alternative ethical solutions through case studies, formal debates and class discussions. May not receive credit for both MGMT 325 and 420.
